TDA1200

The Baroness TDA1200 Sportsground aerator is another quality machine from the Kyoieisha Co. of Japan which combines sturdiness, efficiency and simplicity to give you absolutely the best possible finish on your sports pitches and playing fields.

Designed to work down to a depth of 250 mm, the TDA operates at up to 1.6 km/h and has two crankshaft operating speeds and a wide variety of tine options.

The TDA1200 aerator comes complete with a rear roller as standard as well as a wide variety of tines and finger plates.

Aerate up to 1872 m² per hour with one of the smoothest and most vibration free aerators available today.
