Baroness LM2700 Unique Selling Points

A Strong, Robust and Durable Mid-Weight Fairway Mower
* Designed to be reliable and efficient with a long service life.
* Low maintenance requirement thus reducing running costs.

Independent Hydraulic Systems
* Ensures constant outputs without one system absorbing power from another.
* Keeps reel speeds constant for an even cut.
* Provides excellent slope performance.
* Eliminates downhill runaway tendencies.

High Quality of Cut and Finish
* The grass is jetisoned forward and recycled to leave a fine clipping.
* Rear roller power brushes flick the grass for efficient grass dispersal.
* Excellent wet weather performance.
* Speed restriction lever for obtaining the optimum cutting speed.

Large Diameter Cutting Reels
* 26 inch units for productivity.
* 22 inch units for enhanced contour following.
* Large diameter reels to cope with long and thick grass.

Nickel-Chrome-Molybdenum Cutting Reels
* A very tough and hard wearing material.
* Stays sharper for longer thus enhancing grass condition whilst minimizing maintenance.
* Maximises the effects of relief grinding thus minimizing friction, heat and wear.
* Compatible with backlapping thus keeping blades sharp at a minimal cost.
* Reduces maintenance costs, downtime and frustration.

Tungsten Tipped Bedknives
* Matched in hardness to the cutting reel so does not reduce cylinder life.
* Keeps its edge for up to 4 times longer than most other blades.
* Resistant to top dressing.
* Long life with infrequent maintenance requirements.

Kubota Diesel Engine
* Powerful and reliable normally aspirated 45hp Kubota diesel engine.
* Excellent maintenance access.
* No complicated electronics or computer analysis systems.

Full Roll Over Protection System and Golf Ball Protection Net
* Provides enhanced operator protection.

Selectable 2WD or 4WD on Demand as standard
* 4WD on demand provides traction with minimal turf marking.
* Regulates the forward speed for the best quality of cut.
* Produces a very fast forward speed without compromising the quality of cut for enhanced productivity.

Swing-Out Rear Cutting Units
* Easy access for making adjustments.
* Easy access for maintenance.
* Easy access for cleaning.

Motor Isolation Levers
* Enables the motors to be freely rotating for accurate adjustment.
* Allows all cutting units to be backlapped individually.
* A damaged unit can be raised and isolated in order to allow cutting to continue.

Quick and Simple Adjustments
* Strong positive adjustment with no fancy gadgets.
* Spring loaded blade adjustment.
* Nothing to unlock prior to adjustments or lock back up after adjustment.
* Allows foreign objects through thus reducing the chances of blade damage.
