Baroness LM3210 Unique Selling Points

**A Strong, Robust and Durable Mid-Weight Fairway Mower**
* Designed to be reliable and efficient with a long service life.
* Low maintenance requirement thus reducing running costs.

**Independent Hydraulic Systems**
* Ensures constant outputs without one system absorbing power from another.
* Keeps reel speeds constant for an even cut.
* Provides excellent slope performance.
* Eliminates downhill runaway tendencies.

**High Quality of Cut and Finish**
* The grass is jettisoned forward and recycled to leave a fine clipping.
* Rear roller power brushes for efficient grass dispersal.
* Excellent wet weather performance.

**Large Diameter Cutting Reels**
* A 3.2 metre width of cut producing similar productivity to a 7-unit mower.
* 30 inch cutting units.
* 5 or 7 blade reel options.
* Large diameter reels to cope with long and thick grass.
* Optional full width front rollers for fine turf or wheels for longer grass.

**Nickel-Chrome-Molybdenum Cutting Reels**
* A very tough and hard wearing material.
* Stays sharper for longer thus enhancing grass condition whilst minimizing maintenance.
* Maximises the effects of relief grinding thus minimizing friction, heat and wear.
* Compatible with backlapping thus keeping blades sharp at a minimal cost.
* Reduces maintenance costs, downtime and frustration.

**Tungsten Tipped Bedknives**
* Matched in hardness to the cutting reel so does not reduce cylinder life.
* Keeps its edge for up to 4 times longer than most other blades.
* Resistant to top dressing.
* Long life with infrequent maintenance requirements.

**Kubota Tier 4 / Stage IIB Diesel Engine**
* Powerful and reliable Kubota diesel engine that is fully Tier 4 / Stage IIB compliant.
* Automatic Diesel Particle Filter Regeneration System which can be switched to Manual for dry conditions.
* User configurable Display Monitor with multiple display options available.

**Selecteable 2WD or 4WD on Demand as standard**
* 4WD on demand provides traction with minimal turf marking.
* Regulates the forward speed for the best quality of cut.
* Produces a very fast forward speed without compromising the quality of cut for enhanced productivity.

**Swing-Out Rear Cutting Units**
* Easy access for making adjustments.
* Easy access for maintenance.
* Easy access for cleaning.

**Motor Isolation Levers**
* Enables the motors to be freely rotating for accurate adjustment.
* Allows all cutting units to be backlapped individually.

**Quick and Simple Adjustments**
* Strong positive adjustment with no fancy gadgets.
* Spring loaded blade adjustment with no locking off required.
* Allows foreign objects through thus reducing the chances of blade damage.

**Full Roll Over Protection System and Golf Ball Protection Net**
* Provides enhanced operator protection.
* Weather awning available.
