Baroness LM531 Unique Selling Points

**A lightweight but strong and durable fairway mower**
* A lightweight mower weighing just 1250 kg to reduce turf compaction.
* A four-wheel design that distributes weight more evenly than a 3 wheel mower thus producing a very light footprint, minimal turf marking and increased stability.
* Retains its strength and durability by keeping the design simple whilst not compromising on material thickness.
* A high productivity of up to 8 acres per hour.
* Competitively priced high performance fairway mower with very low maintenance and running costs.

**Operator Comfort and Protection**
* A fully certified ROPS protection system.
* Golf ball protection net and weather awning available to enhance operator safety.
* Fully adjustable high quality Grammer seat with optional head and arm rests.
* A large operator platform with simple and accessible control systems.
* 3 Year Warranty.

**Nickel-Chrome-Molybdenum Cutting Reels**
* A very tough and hard wearing material.
* Stays sharper for longer thus enhancing grass condition whilst reducing maintenance.
* Maximises the effects of relief grinding thus minimizing friction, heat and wear.
* Compatible with backlapping thus keeping the blades sharp at minimal cost.
* Reduces maintenance costs and downtime whilst enhancing presentation.

**Kubota Diesel Engine**
* 23.2 hp compliant diesel engine.
* No complex engine management electronics, DPF’s or computer analysis systems.
* Simple low-cost maintenance.
* Very economical to run at less than 5.9 litres per hour.
* Very quiet low noise system.
* Tried and tested engine with renowned Kubota reliability.

**Motor Isolation Levers**
* Allows the motors to be freely rotating for accurate adjustment.
* Allows the cutting units to be backlapped individually.
* A damaged unit can be raised and isolated to allow cutting to continue.

**High Torque Hydraulic System**
* Enables high performance climbing similar to that of a more powerful fairway mower.
* High torque reel motors can cope with the most demanding of grass conditions.

**Tungsten Tipped Bedknives**
* Matched in hardness to the cutting reels so does not reduce cylinder life.
* Keeps its edge for up to 4 times longer than most other blades.
* Better resistance to top dressing.
* Longer life with less maintenance requirements.

**Excellent maintenance access**
* The rear panel opens to access the radiator, oil cooler, air filter and battery.
* The engine cover opens wide to allow unhindered access to all service areas.
* High air flow radiator cover for enhanced cooling.

**Short Distance between Front and Rear 22 inch Cutting Units**
* 22 inch cutting units provide excellent contour following.
* Ensures effective coverage with minimal uncut areas when turning sharply or during steep slope operation.
* Quick no tool removal of rear cutting units to allow excellent maintenance access.

**4WD Cross Circuit Hydrostatic Transmission as standard**
* Very low centre of gravity.
* Excellent traction and slope performance.
* Short wheelbase and power steering enhances manoeuvrability.
* Market leading anti-crabbing performance.
