

# BARONESS

Quality on Demand

# LM180E

Powered by a reliable Mitsubishi engine, the LM180E has the power and flexibility to cope with long grass, short fine turf alike, where high output is needed. The reduced gear drive from the engine with the differential lock, makes it flexible and stable at low speeds on inclines up to 15 degrees. Along with this the three-speed gearbox that gives you fine control on difficult sloping areas, a fast cutting speed and a transport speed up to 9.4 km/h.

## EASY MAINTENANCE

Each floating head has openings on the top front & back, making clean up simple. The easier it is the more likely it will get done.

## LIGHTWEIGHT

A light and very compact versatile machine, with superb movability.

## THE HEART OF BARONESS

At the heart of every Baroness reel mower is the cutting cylinder and bedknife. No-one takes more care than Baroness! Every cutting cylinder is individually balanced before being installed and our heat treatment process ensures that the cutting edges of both our cutting cylinders and bedknives stay sharp and true.

## LESS DOWNTIME

A mower focused on quality of cut, simplicity and minimal electronics, results in higher reliability and less downtime.

**Total length:** 215cm

**Total width:** 208cm

**Total height:** 102cm

**Weight:** 381kg

**Engine:** Mitsubishi GB300LN 0.291L (9.8HP)

**Fuel tank:** 6L

**Cutting width (Mowing width):** 188cm

**Cutting height (Adjusted mowing height):** 10mm up

**Cylinder:** 7 blade

**Speed:** Forward low 3.1km/h  
Second 6.4km/h,  
Third: 9.4km/h,  
Reverse: 3.1km/h

**Efficiency:** 9,630m<sup>2</sup>/h  
(6.4km/h×Cutting width (Mowing width)×0.8)
