

# Baroness LM351 Unique Selling Points

**BARONESS**  
Quality on Demand

## Excellent Productivity

- Maximum regulated forward speed of 15.5 km/h.
- High productivity of 14,720 m<sup>2</sup>/h at 10.0 km/h.
- Speed control limiter for optimum cut quality.

## Lightweight Utility Mower

- 1084 kg net weight for low turf compaction.

## Open Maintenance Access

- Large fully opening engine cover
- Tilting operator seat for easy access to components.
- Quick removal cutting units.

## Operator Comfort

- Fully adjustable padded operator seat.
- Optional sun canopy.
- Optional golf ball protection net
- Fully certified operator protection ROPS system.
- Bright LED working lights.

## 25.2 PS Kubota Diesel Engine

- Non-DPF engine.
- Minimal electronic control systems.
- Excellent power to weight ratio.

## Cutting Unit Optional Extras

- Front roller scrapers.
- Rear roller scrapers.
- Rear roller brushes.
- Heavy duty PU grass boxes.
- Side anti-scalp plates.
- Side wheel option to replace front rollers in longer grass operations.

## Easy radiator and Oil Cooler Access

- Large access to radiator and oil cooler.
- Fold down oil cooler for easy cleaning.

## Market Leading Quality of Cut

- Nickel Chrome Molybdenum 7 blade cutting reels to enable minimal wear even with aggressive blade relief.
- Long-life 5mm Tungsten tipped bedknives.
- 76 cm (30 inch) rear cutting unit to eliminate uncut areas during a sharp turn.
- 184 cm cutting width.

## Advanced Wheel Geometry Design

- Provides a tighter turning circle with reduced operator input.
- Low tyre surface pressures and enhanced stability from 4 wheel design.
- Staggered wheel alignment to minimize double roll from tyres.
- Even weight distribution.

## Cross Circuit 4WD

- Hydrostatic 4WD.
- Balanced drive torque distribution.
- Low centre of gravity.
- Enhanced climbing ability.
- Superior slope performance rated to a maximum of 15°.
- Minimal turf damage.
- Speed limiter to control optimum cutting performance.
