

# AgriMetal GR400 Unique Selling Points

## Standard Equipment

- \* The GR400 includes a purpose-built transportation trailer.

- \* The trailer has a lift assisted tail ramp which is self-locking for additional roller security.

## Ergonomic Design

- \* Hydraulically assisted steering to reduce operator fatigue.
- \* Single hand steering operation for quick directional response.
- \* High grip direction change pedals for enhanced control.

## Operator Comfort

- \* Fully adjustable operator seat with arm rests as standard.
- \* Soft touch steering wheel for added operator comfort.

## Powerful and reliable engine

- \* Fitted with a 14hp Kohler petrol engine.
- \* Large dual fuel tanks provide a long operating time.

## Easy maintenance access

- \* Easy access to all service areas to include the engine bay and the roller drives.

## Additional Equipment

- \* The GR400 comes with 2 LED working lights fitted as standard to enable early morning operations.
- \* Optional pre-roller brushes are available that will remove dew from the green, remove worm cast from the green, and brush top dressing into the turf.

## Advanced roller design

- \* Each roller is made of hard-wearing steel which means there are no rubber coatings to become damaged or worn.
- \* Each roller units is driven by independent hydraulic drive motors which are connected in series to distribute flow and torque evenly.
- \* The GR400 features floating steering heads which enable them to follow contours precisely over severe undulations, to provide a better putting surface with minimal compaction.

## Speed and efficiency

- \* The GR400 has a working width of 102cm which provides the best ratio between efficiency and contour following.
- \* The overall weight of 427 kg is distributed through four steel rollers to provide an average ground pressure of 5.9 PSI which provides a good roll without excess compaction.

## Roller Drive

- \* All belt drive for reduced maintenance.
- \* All belt guards are fully enclosed to reduce wear caused by contamination.
